Feather meal

NPK 13-0-0

SoilWorx Feather Meal pellets are made from hydrolysed poultry feathers sourced from our parent company College Proteins in Ireland.

Feather meal is a naturally slow release organic fertiliser and ideal to use as a starter application of nitrogen for sustained nutrition over the growing season.

Key benefits

- 🌿 Pellets – easy application
- 🌿 13% nitrogen and trace amounts of other nutrients
- 🌿 Source of slow-release nitrogen

Note: Not to be applied to edible parts of the crop.
