

Liquid N

Available
in 12,000 or
27,500ltr
loads

SoilWorx Liquid N is SoilWorx's first liquid fertiliser containing 3.5kg/m³ of ammonium nitrogen. A perfect liquid source to apply to soils, especially in drought conditions.

Key benefits

- Clear liquid solution
- 3.5kg/m³ ammonium N only

Nutrient	Fresh weight Kg/m ³	Fresh weight Units/1000 gallons
Nitrogen (N)	3.54	31.88
Phosphorus (P)	0.00	0.02
Potassium (K)	0.02	0.16
Magnesium (Mg)	0.00	0.02
Sulphur (S)	0.03	0.23
Calcium (Ca)	0.01	0.13
Ammonium Nitrogen	3.47	31.23
Dry matter	0.20	
pH	9.7	

*As Liquid N is derived from a natural product, slight variations in analysis may occur. Figures given are average values.
