

100% natural & organic

Seaweed & poultry

NPK 4-3-2

SoilWorx Seaweed & Poultry Manure

contains a powerful plant biostimulant and nutrient source, suitable for use across all plants and lawns. It promotes healthy growth leading to better yields, stronger roots and plants with enhanced resistance to abiotic stress due to drought, heat, frost and salinity.

Each pellet contains oligo and polysaccharides such as laminarin which activate the plant's own growth and protection systems, Polyphenols: Antioxidants which help the plant during oxidative stress environments and additional minerals and micronutrients.

Key benefits

- Blend of sustainably sourced seaweed from the Atlantic coast and local poultry manure
- Seaweed (*Ascophyllum nodosum*) is a well-known bio-stimulant and blending nature's best natural fertilisers together gives the grower the best of both products in one handy pellet
- In addition, seaweed blends contain increased calcium, sulphur, iron & manganese nutrients

Nutrient	Units	Typical analysis*
Nitrogen (N)	% w/w	3.9
Phosphorus (P ₂ O ₅)	% w/w	3.6
Potassium (K ₂ O)	% w/w	2.1
Sulphur (SO ₃)	% w/w	2.5
Calcium (CaO)	% w/w	2.4
Organic matter	%	72.7
C/N ratio		9.4

*As Seaweed & Poultry is a natural product, slight variations in analysis may occur. Figures given are average values.
