Sulphate of potash powder

NPK 0-0-50

SoilWorx Sulphate of Potash (SOP)

is a highly soluble potassium fertiliser suitable for organic growers.

Potassium is required by plants for control of water and translocation of sugars and will improve the overall plant development. For potato growers it can be used to improve tuber size and assist resistance to common scab.

Key benefits

- 50% potassium (K_2O)
- 46% sulphur (SO_3)
- 0% nitrogen (N) and phosphorus (P_2O_5)
